

Privacy policy for the use of the Parship Website

Version: 24.10.2018

Thank you for using the Parship website! Here you will find information about which personal data Parship collects, how we handle these data and what options you have as a user. PE Digital GmbH (hereafter "Parship") is responsible for the data processing. Our contact details and those of our data protection officer can be found below under "[Contact](#)".

Collection, processing and use of personal data

The supply of your personal data is done voluntary in connection with the conclusion and existence of the contractual relationship with Parship. It is necessary that you indicate amongst others special categories of personal data (the gender you are looking for is a data concerning your sexual orientation). If you do not want Parship to process your personal data and especially special categories of data, Parship will not be able to provide you with its service. Please refer to the following information for details of which data Parship collects in detail.

What data does Parship collect from its members to fulfill the contractual relationship?

In order for Parship to perform the services fully described in the [General Terms and Conditions](#), it is necessary to collect, process and use personal data that the user (also referred to as a Parship-Member) indicates, inter alia, in connection with the registration process or the conclusion of a Basic-Membership or a Premium-Membership.

Registration process and conclusion of a Basic-Membership

During the initial free registration (conclusion of the so-called "Basic-Membership"), the user (also called "Basic-Member") is required to provide certain minimum information without which the registration cannot be completed. These mandatory data are:

- » Gender and searched gender (the gender you are looking for is a data regarding sexual orientation)
- » Email address
- » Password

Furthermore, further information, such as

- » Post Code
- » Date of birth

can already be specified during the registration process.

Access to Parship is made through the Email address and the password indicated by the user (so-called access data).

Amongst others, following information are requested during the personality test that follows the registration

- » Post Code
- » Date of birth

- » Marital status
- » Number of children
- » Education level
- » Occupation
- » Income

Furthermore, Parship needs further information from its users in order to perform its services, such as tastes, personal values, preferences, appearance, and other characteristics relevant for the personalised partner recommendations and that serve as a basis for the creation of the Parship-profile. As part of the profile, free text information and pictures of the Parship member could be included. From your answers to the Parship personality test, we automatically generate the so-called Parship personality profile.

Parship identifies separately questions which answers should not be displayed to other users. All other data of the Parship profile are visible on the website for other registered users. Also visible are data that are released by the user to other users, including age, postal code, interests, etc.

Parship gives the possibility to indicate a mobile phone number for a so-called ID-Check or to receive SMS from Parship. The indication of a mobile phone number is not necessary to use Parship service.

At registration via Facebook ("Facebook Login")

Parship offers you the opportunity to register via your Facebook account. If you use it, we will receive the data required for registration from Facebook. Due to that a data transfer is needed.

We have no influence on the amount of data collected by Facebook via the Facebook login. If you do not want Facebook to collect information about you in connection with your use of our online service and use it for your own purposes, you should not use the Facebook login.

For more information on the purpose and scope of the survey and the further processing and use of your data by Facebook, as well as your rights and options to protect your data, please refer to the Facebook Privacy Policy: <http://www.facebook.com/policy.php>.

Completion of a premium membership

If the user (hereinafter referred to as "premium member") decides to use a fee-based service of Parship (so-called "premium membership"), the following information will be collected within the order:

- » Name and first name

- » Residential address
- » Payment and billing details (credit card details are stored by the payment provider and not by Parship)

Communication with the members and the customer service

Parship stores member communications and communication with customer service. The communication of the members in the logged-in state is encrypted.

Please take into account when communicating with our customer service: If you communicate with our customer service about the logged in status, this communication is encrypted. If our customer service answers via email, this communication is unencrypted.

What information does Parship collect for promotional purposes?

Upon conclusion of the free basic membership you enter your email address in the input mask. This email address can subsequently be used to send advertising emails for the free and paid products of PE Digital GmbH, without the need for your consent. You have the opportunity to object to the use of your email address for promotional purposes at any time. The Parship website also offers the option of subscribing to a free newsletter. The data from the input mask are used when signing up to the newsletter. Again, you can always object to the use of your email address for the receipt of newsletters. You will also receive personalized or personalized guides during Parship membership to help you get the most out of your Parship products. [Here](#) you can find out which cookies Parship uses as part of advertising.

What information does Parship collect when using the Parship website?

Within every access to the website Parship user data of the respective website visitors - unless otherwise stated below, even if they are not Parship members - is transmitted by the respective Internet browser and stored in log files. These data are:

- » Information about the browser type and the internet service provider of the user as well as the used operating system (for example Windows 7, Apple OS, etc.)
- » IP address (Internet Protocol address) of the accessing computer, tablet or smartphone
(In this case, the IP address is compared with a geo-database and the origin or country, state and city of the user are determined.)
- » User ID on the Parship platform (only by Parship members)
- » Name of the accessed page
- » Date and time of the call
- » The referrer URL (origin URL) from which the user came to the retrieved page

- » Transmitted amount of data
- » Status message as to whether the retrieval was successful
- » Session identification number
- » Used screen resolution

The so-called login records store the following usage data each time the Parship member logs in to the network:

- » Date and time of login
- » User ID on the Parship platform
- » IP Address (Internet Protocol Address)
- » Number of session cookies
- » Session identification number
- » Meeting participants pseudonym

Processing purposes

Parship processes personal data of its users for the following purposes:

- » To fulfill the services described in the [General Terms and Conditions](#). (Legal basis of the data collection is the fulfillment of the contractual relationship concluded with you as a Parship member.) Please note that we also collect sexual orientation data "gender and sex sought" in this context.
- » For abuse, prevention and defense. Parship will use the geodata and personal data collected in connection with your registration, the completion of the Parship Personality Test and the Parship Profile for an automated review of any evidence of abuse of the Parship website. The data are stored in a database under a pseudonym and compared with empirical values. If the automated processing reveals a suspicion of abuse, a Parship employee reviews the rating and the underlying clues, and then the free text information and profile pictures. Also, a customer service representative reviews reported breaches of contract by other members. Furthermore, Parship uses the optional indication of a mobile phone number in order to perform a secured identity check within the framework of the so-called ID-Check. (Legal basis is the legitimate interest of Parship and the Parship members that the Parship service is not abused for contractual and / or unlawful acts of third parties).
- » For automated price determination. (Legal basis is the fulfillment of the contractual relationship.)
- » For ensuring your remuneration obligations from the contractual relationship in the event of default. (The legal basis is apart from the fulfillment of the

contractual relationship also the legitimate interest Parship in the payment of the contractually agreed remuneration.)

- » For the functionality of the website, to optimize the website and to ensure the security of the information technology systems of Parship. In this case, Parship uses technically necessary and unnecessary [cookies](#) or analysis cookies (legal basis is the legitimate interest of Parship and the Parship members that the Parship service can be used safely and easily and the quality of our website and content is constantly improving.)
- » For recording and evaluating user behavior for interest-based advertising (exclusively PE Digital products). In order to measure the performance of these advertising campaigns (so-called conversion tracking), we provide tracking data to third parties (such as Google and Microsoft). You will find further details under "[Web analytics](#)". (Legal basis is the legitimate interest of Parship and other advertisers to play interest-based advertising and to provide users with advertisements tailored to their personal interests.)
- » For the integration of social plugins and social share functions. (Legal basis is the legitimate interest of Parship, to comply with the request of the users who have activated a social plugin to share their information with the appropriate social network.
- » For self-advertising through unencrypted advertising emails, SMS or WhatsApp messages and advertisements in the form of banner advertising on other websites. (The legal basis is the legitimate interest of PE Digital GmbH in direct marketing for its own products.)
- » For sending various newsletters (via unencrypted e-mail, SMS or WhatsApp messages) in which you can find out more about the products of Parship. (The legal basis is the legitimate interest of Parship in direct marketing for its own products.)
- » For market research and range measurement. (The legal basis is Parship's legitimate interest in gaining insights into the market value of the Parship website in direct comparison with third-party websites.) The legitimate interest also arises from the economic exploitation of the findings resulting from the range measurement. The user categories form the basis for an interest-oriented alignment of advertising material and advertising measures. [Here](#) you can find further information.

Legal basis for the processing of personal data

- » Insofar as we obtain the consent of the data subject for processing of personal data, point (a) of Article 6(1) of the EU General Data Protection Regulation (GDPR) serves as the legal basis.
- » When processing personal data required to fulfill the contractual relationship of Parship (basic membership or premium membership), point (b) of Article 6(1) GDPR is the legal basis. This also applies to processing data required to carry out pre-contractual actions.
- » If processing is necessary to safeguard the legitimate interest of Parship or a third party, such as its members, and the interests, fundamental rights and freedoms of the data subject do not prevail over the first mentioned interest, point (f) of Article 6(1) GDPR is the legal basis for processing.
- » If processing personal data required for self-promotion (Basic-Membership or Premium-Membership), point (f) of Article 6(1) GDPR is the legal basis for processing.

Transfer of data to third parties; service provider

Your personal data will only be given to third parties by Parship if this is necessary for the fulfillment of the contract or if your consent exists. If personal data is transmitted to third parties on the basis of a legitimate interest, we explain our legitimate interest in this privacy policy.

In addition, personal data may be transferred to third parties, as far as Parship should be obliged to do so due to legal regulations or enforceable official or court orders.

Service provider

Parship reserves the right to use service providers when collecting or processing personal data. Service providers receive from Parship only the personal data they need for their specific activity.

Parship uses service provider for sending emails and newsletters to their members. In addition, service providers provide Parship server capacity. External payment services and collection-related service providers assist Parship with the settlement of payments. Depending on which payment method you choose in the order process, Parship will forward the data collected for processing payments (eg bank details or credit card information) to the payment institution or to the payment service provider appointed by Parship. In part, the payment service providers also collect these data in own responsibility. In this respect, the privacy policy of the respective payment service provider applies.

Service providers are usually involved as so-called processor, who may process personal data of the users of this online service only according to instructions from Parship.

Transfer of data to non-EEA countries

In exceptional cases, Parship will also share personal information with a processor located in a non-EEA country. Basically, the servers of this service provider are located within the EU. However, as part of a long-term care contract, this software supplier has the opportunity to access the software systems through specialists based outside the EU. Parship has ensured that the recipient has an adequate level of data protection prior to disclosure (by demonstrating the recipient's certifications and by agreeing to the EU's standard contractual clauses with the recipient).

You may receive further information from Parship as well as a copy of the specific arrangements agreed to ensure the appropriate level of data protection. Please use the information in the section [Contact](#).

Duration of storage; retention periods

We store your data for as long as this is necessary for the provision of our online offer (basic and premium membership) and the associated services or we have a legitimate interest in the further storage. In all other cases, we will erase your personal information except for such information as we may need to maintain in order to fulfill contractual or statutory (e.g. tax or commercial) retention periods (e.g. invoices).

For basic members: You can object to the storage of personal data contained in your profile at any time with future effect. You can also erase your profile data yourself. For basic members who are inactive for 24 months, Parship automatically erases personal profile data.

For Premium members: The personal data of Parship Premium members are always stored for the duration of the contract. If you ask us to do so, we will erase your data, as long as there is no statutory storage obligation for these data. Data that is subject to a retention period, we lock until the expiry of the retention period. If you do not ask us to erase your data until the end of Premium Membership, your premium membership will be converted into a basic membership. The previously stated information on the duration of the storage of basic member data then applies.

Please note that your data will initially be blocked only if deletion is prevented by retention periods.

In the context of the assertion of data subject rights Parship stores those data, which are necessary for the fulfillment or the proof during the limitation period.

Rights of the data subject

You have the right of access and, under certain conditions, to rectification, erasure, restriction of processing or to object to the processing of their personal data and to data portability.

You can also object at any time to the processing of your personal data for advertising purposes ("object to advertising "). Please take into account that for organizational reasons there may be an overlap between your assertion of your right to object and the use of your data as part of an ongoing campaign.

You have given us your information about your sexual orientation (gender and sex). You can assert your right to object this consent at any time with effect for the future. The lawfulness of the processing of your data until the assertion of your right to object remains unaffected. From the time of your withdrawal partner suggestions can no longer be made and Parship can no longer provide its service.

Please use the information under [Contact](#) to assert your rights. Please make sure that we can clearly identify you.

Alternatively, you can use the setting options in your profile to rectify your data provided during registration or for your object to advertising. You can also erase the data of your Parship base membership yourself. Erasure of premium membership data can only be initiated through Parship Customer Service. Please note that your data will initially only be blocked if the erasure is prevented by retention periods.

Right to lodge a complaint with a supervisory authority

You have the right to file a complaint with a data protection authority. You can contact the data protection authority, which is responsible for your place of residence or your state, or the data protection authority responsible for us. This is:

Free and Hanseatic City of Hamburg, The Hamburg Commissioner for Data Protection and Freedom of Information, Prof. Dr. med. Johannes Caspar, Tel.: +49 (40) 428 54 - 4040, Fax: +49 (40) 428 54 - 4000, E-Mail: mailbox@datenschutz.hamburg.de

Contact

For information and suggestions on data protection, we or our data protection officer are at your disposal.

If you would like to contact us, you can contact us as follows:

PE Digital GmbH, Customer Service Parship United Kingdom, Speersort 10, 20095 Hamburg, Germany, +49 (40) 460026 - 168 (fax number), privacypolicy@parship.co.uk (email)

Our data protection officers can be reached at:

Dr. Stefanie Wegener, privacypolicy@parship.co.uk (email)

Cookies & web tracking

This website uses cookies. Which cookies are used in detail can be found [here](#). In addition to the name of the individual cookies, we have also listed the intended purpose and other important information at this point. You can use Parship via the URL tfv.parship.co.uk free from advertising cookies and analysis cookies.

Cookies are small text files that are sent when you visit a website and stored in the browser of the user. If the corresponding Internet page is retrieved, the browser of the user sends back the content of the cookies and thus enables recognition of the user. Certain cookies are automatically erased after the end of the browser session (so-called session cookies), others are stored for a predetermined time or permanently in the user's browser and then erase themselves (so-called temporary or permanent cookies).

In cookies, no personal data is stored, but only an online identifier.

What kind of cookies does Parship use?

Strictly necessary cookies

Certain cookies are required to make our online offer safe and easy to use. This category includes

- » Cookies that serve to identify or authenticate our users;
- » Cookies that temporarily store certain user entries;
- » Cookies that store certain user preferences.

Analysis cookies

We use analysis cookies to record the usage behavior (eg visited subpages) of our users and to evaluate them in statistical form.

Third Party Advertising Cookies / Third Party Pixel / Third Party Tracking

We also allow other companies to collect our users' data through advertising cookies or pixels. This allows us and third parties to provide users of our online offering with interest-based advertising based on an analysis of their usage behavior (e.g., clicked banner ads, visited subpages) as a whole and not limited to our online offering.

Which cookies / pixels are used in detail can be found [here](#). In addition to the name of the individual cookies / pixels, we have also listed the intended use and other important information there. You can use Parship via the URL tfv.parship.co.uk free from advertising cookies and analysis cookies.

How can you prevent the use of cookies or erase cookies?

You can use Parship via the URL tfv.parship.co.uk free from advertising cookies and analysis cookies. In this case, only the [strictly necessary cookies](#) that are necessary for the use of the website are used.

Alternatively, you can deactivate the storage of cookies via your browser settings and erase already stored cookies at any time in your browser (see [Technical Notes](#)). Please note, however, that this online offer without cookies may not work or may only work to a limited extent.

We also recommend the website of www.YourOnlineChoices.com, where you can get information and help in connection with web tracking mechanisms.

Web analytics

We need statistical information about how we use our online offering to make it more user-friendly, measure reach, and conduct market research. For this purpose, we use the following web analytics tools. The tools either do not use users' IP addresses at all, or truncate them immediately after the survey. The usage profiles generated by the tools using analytic cookies or by evaluating the log files are not merged with personally identifiable information. The providers of the tools process data as processors according to our instructions and not for their own purposes.

Which web analytics tracking mechanisms are used in detail can be found [here](#). In addition to the description of the individual tracking mechanisms, we have also listed the intended use and other important information at this point. You can use Parship via the URL tfv.parship.co.uk free from web analytics tracking mechanisms.

You can use Parship via the URL tfv.parship.co.uk free from advertising cookies and analysis cookies. In this case, only the [strictly necessary cookies](#) that are necessary for the use of the website are used.

We also recommend the website of www.YourOnlineChoices.com, where you can get information and help in connection with web tracking mechanisms.

Google Analytics

This website uses Google Analytics, a web analytics service provided by Google Inc. ("Google"). Google Analytics uses cookies that are stored on your computer, tablet or smartphone and that allow an analysis of your use of the website. These are cookies from Google itself (Google Analytics cookies). Parship uses Google Analytics with the additional feature offered by Google for the anonymization of IP addresses: Google's IP address is usually already shortened within the EU and only in exceptional cases only in the US and in

any case only in abbreviated form. On behalf of Parship, Google will use this information to evaluate your use of the website, to compile reports on website activity, and to provide other services related to website activity and internet usage, such as Google Analytics demographics and interest reports, to provide to Parship. How Google processes data is described here: https://privacy.google.com/intl/en_uk/businesses/processorterms/

Unused by Parship will be the Google Analytics Advertising Features.

You can use Parship via the URL tfv.parship.co.uk free from advertising cookies and analysis cookies. In this case, only the [strictly necessary cookies](#) that are necessary for the use of the website are used.

Using Google Adwords Conversion Tracking

Parship uses the Google AdWords online advertising program and Google AdWords conversion tracking. Google Conversion Tracking is an analytics service provided by Google Inc. (1600 Amphitheater Parkway, Mountain View, CA 94043, USA; "Google"). When you click on an ad served by Google, a conversion tracking cookie will be placed on your computer, tablet or smartphone. These cookies lose their validity after 90 days. If you visit certain web pages on our website and the cookie has not expired, Google and we may recognize that you clicked on the ad and were redirected to this page. Each Google AdWords customer receives a different cookie.

The information gathered using the conversion cookie is used to generate conversion statistics for AdWords advertisers who have opted for conversion tracking. It tells customers the total number of users who clicked on their ad and were redirected to a conversion tracking tag page. However, they do not receive information that personally identifies users.

You can use Parship via the URL tfv.parship.co.uk free from advertising cookies and analysis cookies. In this case, only the [strictly necessary cookies](#) that are necessary for the use of the website are used.

Use of Bing Ads conversion tracking

Parship uses the Bing Ads online advertising program and within this framework the conversion tracking. The Bing conversion tracking is an analysis service provided by Microsoft Corporation, One Microsoft Way, Redmond, WA 98052-6399, USA ("Microsoft"). When you click on an advertisement displayed by Bing, a conversion-tracking cookie will be stored on your computer, tablet or smartphone. These cookies lose their validity after 90 days. When you visit specific internet pages of our websites and a cookie is still valid, Bing and Parship can identify that you clicked on the advertisement and that you were redirected on this specific internet page. Every Bing Ads user receive a different cookie.

The information gathered through the conversion cookie are used to generate conversion statistics for Bing users who have opted for conversion tracking. This way Parship gets to know how many users have clicked on its advertisement and have been redirected to a page tagged with a conversion tracking tag. However, Parship does not receive any information that personally identifies users.

You can use Parship free from web analysis cookies through the URL tfv.parship.co.uk In this case, only the [strictly necessary cookies](#), which are necessary for the use of the website, remain in place.

Use of Google Adwords remarketing function

Parship uses the online advertising program "Google AdWords" and within this framework, conversion tracking (evaluation of user actions). The Google conversion tracking is an analysis service provided by Google Inc., 1600 Amphitheater Parkway, Mountain View, CA 94043, USA ("Google"). This feature allows Parship to target visitors to the website with advertising by delivering personalized, interest-based ads to Parship visitors when they visit other websites on the Google Display Network or use Google's or a partner's search function. Google uses cookies to analyze website usage, which forms the basis for creating interest-based advertising. To do this, Google saves a small file with a sequence of numbers in the browser of Parship users. Through this sequence of numbers visit of Parship and data regarding the use of Parship will be recorded. If users subsequently visit other websites on the Google Display Network or the search function of Google or a partner, Parship will display advertisements to visitors that are highly likely to include previously accessed product and information areas.

You can use Parship free from web analysis cookies through the URL tfv.parship.co.uk In this case, only the [strictly necessary cookies](#), which are necessary for the use of the website, remain in place.

You can permanently deactivate the use of cookies by Google by following the link below and downloading and installing the plug-in provided there: <https://tools.google.com/dlpage/gaoptout?hl=en>. Alternatively, you can disable the use of cookies by third parties by visiting the deactivation page of the Network Advertising Initiative at <http://www.networkadvertising.org/choices/> and implementing the additional opt-out information mentioned there. For more information about Google Remarketing and Google's privacy policy, please visit <https://policies.google.com/technologies/ads?hl=en>

Facebook custom audiences

Parship wants to present "interest based advertising" on Facebook and to limit the frequency of display of certain advertisements. For this purpose, Parship uses the tool Website Custom Audiences from Facebook and Facebook-Pixel. With Facebook-Pixel, a JavaScript code sends

the following data To Facebook Ireland Ltd, Grand Canal Square, Grand Canal Harbour, Dublin 2, Ireland ("Facebook"):

- HTTP header information (amongst others IP address, web browser information, page location, document, URL of the website, and respectively of each accessed page and web browser user agent as well as day and time of the use).
- Events (user's visit of Parship web site, registration, completion of the personality test, purchase).
- Pixel-specific information; this includes the pixel ID and Facebook cookie data, including your Facebook ID (they will be used to link Events to a specific Facebook advertising account and to assign them to a Facebook user)

Facebook checks automatically, using the hashed user-specific Facebook ID (contained in the Facebook cookie), whether the data transmitted via Facebook-Pixel can be assigned to a Facebook user. If no Facebook cookie is stored in your browser, no assignation to one of the "Custom Audience" designated user groups will be made.

If the Facebook ID contained in the Facebook cookie can be assigned to a Facebook user, Facebook assigns this user to a "Custom Audience" according to the rules we have fixed, if the applicable criteria are met. We use the information so obtained to display advertisements on Facebook ("Facebook Ads"). However, ads are displayed only to "Custom Audience" above a minimum of 20 different users – therefore no conclusion can be drawn based on the ad placement about the individual user's characteristics. The assignment to a "Custom audience" is made for a maximum of 180 days. This period of time starts afresh when you visit our website again and a compliance with the same "Custom Audience" rules applies.

Facebook may assign your visit on our website and your related activities to your Facebook account. This is not possible for us. We receive only statistical information from Facebook via Audience Insights about the use of our website.

You can use Parship via the URL tfv.parship.co.uk free from advertising cookies and analysis cookies. In this case, only the [strictly necessary cookies](#) that are necessary for the use of the website are used.

SZMnG audience measurement

Our website uses the measuring method ("SZMnG") of INFOnline GmbH (<https://www.infonline.de>) to determine statistical parameters on the use of our offers. The aim of the usage measurement is to determine the number of visits to our website, the number of website visitors and their surfing behavior statistically - based on a uniform standard procedure - and thus to obtain comparable values across the market.

For all digital offers that are members of the Information Society for the Determination of the Dissemination of Advertising Media (IVW - <http://www.ivw.eu>) or in the studies of Arbeitsgemeinschaft Online-Forschung eV (AGOF - <http://www.agof.de>), the usage statistics are regularly further processed by the AGOF and the Arbeitsgemeinschaft Media-Analyse eV (agma - <http://www.agma-mmc.de>) into ranges and published with the performance value "Unique User" and by the IVW with the performance values "Page Impression" and "Visits". These ranges and statistics can be viewed on the respective websites.

The INFOnline GmbH collects the following data, which according to EU-DSGVO have a personal reference: IP address: On the Internet, each device requires a unique address for the transmission of data, the so-called IP address. The at least temporary storage of the IP address is technically necessary due to the functioning of the Internet. The IP addresses are shortened by 1 byte before any processing and processed only anonymously. There is no storage or further processing of the unabridged IP addresses.

A randomly generated client identifier: In order to recognize computer systems, reach processing alternatively uses either a cookie with the ID "ioam.de", a "Local Storage Object" or a signature that is created from various automatically transmitted information from your browser. This client identifier is unique to a browser as long as the cookie or local storage object is not erased. So measuring the data and then assigning it to the respective client identifier is also possible if you access other web pages that also use the measurement method ("SZMnG") of the INFOnline GmbH. The validity of the cookie is limited to a maximum of 1 year.

The measurement procedure of INFOnline GmbH, which is used on this website, determines usage data. This is done to collect the performance values of page impressions, visits, and clients, and to provide additional metrics (e.g., qualified clients). In addition, the measured data is used as follows:

A so-called geo-localization, i.e. the assignment of a website call to the place of the call, takes place exclusively on the basis of the anonymized IP address and only up to the geographical level of the federal states / regions. From the geographic information obtained in this way, in no case can a conclusion be drawn on the specific location of a user.

The usage data of a technical client (eg a browser on a device) are merged across web pages and stored in a database. This information is used for the technical assessment of socio-information age and gender and passed on to the service providers of AGOF for further range processing. The AGOF study uses a random sample to technically estimate societal characteristics that fall into the following categories: age, gender, nationality, occupation, marital status, household information, household income, place of residence, internet usage, online interests, place of use, user type.

The complete IP address will not be saved by INFOnline GmbH. The shortened IP address is stored for a maximum of 60 days. The usage data in connection with the unique identifier are stored for a maximum of 6 months.

The IP address as well as the shortened IP address will not be forwarded. For the preparation of the AGOF study, data with client identifiers are forwarded to the following service providers of AGOF: Kantar Deutschland GmbH (<https://www.tns-infratest.com/>), Ankordata GmbH & Co. KG (<https://www.ankordata.de>), Interrogare GmbH (<https://www.interrogare.de/en/>).

You can use Parship via the URL tfv.parship.co.uk free from advertising cookies and analysis cookies. In this case, only the [strictly necessary cookies](#) that are necessary for the use of the website are used.

Social plugins

The integration of social plugins regularly leads to the providers of the plugins storing cookies. The various providers of plugins are summarized below under the term "plugin provider".

In order to increase the protection of your data when visiting our online service, the plugins are integrated into the site via the so-called "Shariff solution". This ensures that when you call up a page of this online offer, no connection is established with the servers of the respective plug-in provider.

Only when the plugins are activated by you, your Internet browser establishes a direct connection to the servers of the respective plugin provider. This gives the plugin provider the information that your Internet browser has accessed the corresponding page of our online service, even if you do not have a user account with the provider or are currently not logged in. Log files (including the IP address) are transmitted from your Internet browser directly to a server of the respective plugin provider and possibly stored there. This server may be located outside the EU or the EEA (for example, in the U.S.A.).

The plugins represent independent extensions of the plugin providers. Therefore, we have no influence on the extent of the plugin providers collected and stored by the plugins data.

If you do not want the plug-in providers to receive the data collected via this Internet portal and to save or re-use them, you should not use the respective plug-ins.

Basically, you can completely prevent the plugins from being loaded with add-ons for your browser, so-called script blockers.

Further information on the purpose and scope of the survey as well as the further processing and use of your data by plug-in providers as well as your rights and setting options for the protection of your data can be found in the privacy policy of the respective provider.

Parship uses social plugins ("plugins") from the following providers:

Social plugins from Facebook

Plugins of the social network Facebook; Facebook will be available at www.facebook.com from Facebook Inc., 1601 S. California Ave, Palo Alto, CA 94304, USA, and at en-gb.facebook.com from Facebook Ireland Limited, Hanover Reach, 5-7 Hanover Quay, Dublin 2, Ireland, ("Facebook"). An overview of the plugins of Facebook and their appearance can be found here <https://developers.facebook.com/docs/plugins/>; You can find information about data protection on Facebook here: <http://www.facebook.com/policy.php>

Social plugins from Twitter
